

JEOPARDY USER GUIDE

An AshCorp Program

About the Company

Founded in 2017, AshCorp is a female-led, family-run, information technology company that specializes in creating applications for educational purposes.

About Jeopardy

Disclaimer: All rights to the Jeopardy game and brand to Merv Griffin

Our Jeopardy program is a unique spin on the popular game show, Jeopardy. It allows players to test their knowledge of categories that are both trivial and educational in nature. This program is an excellent way to engage students in the classroom and make learning fun. The starting price for the program, with the default categories, is \$29.99. Additional packages for specific genres (ie Science), can be purchased for an additional charge of \$5.99 each.

Key Features: & How To:

- Home Screen
- Jeopardy Gameplay
 - Classic
 - By Genre
- Import Data
 - By Genre
 - By File
- View Scores
- Change Settings
- Menu Bar

Home Screen

- 5 different options
 - Classic — starts a classic game of Jeopardy
 - Genre — allows the user to choose a genre to base all the game categories on

- Import New — allows the user to input new genres, categories, and questions
- Settings — allows the user to change the default settings, including colour and difficulty (time & allowing restarts)
- View Scores — allows the users to view the scores of the top 100 players

Jeopardy Gameplay

Jeopardy!				
Space	Disney Princess Movies	Oceanography	Tallest, Fastest, or Largest	Dancing
\$200	\$200	\$200	\$200	
\$400	\$400	\$400	\$400	
\$600	\$600	\$600	\$600	
\$800	\$800	\$800	\$800	
\$1000	\$1000	\$1000	\$1000	

- Offers a wide variety of built-in categories

How to Play:

- There will be 6 categories per round, with 5 questions each
- Select a question value from a category
- Once you have selected, if the question is a daily double, the following window will appear BEFORE you get your question:

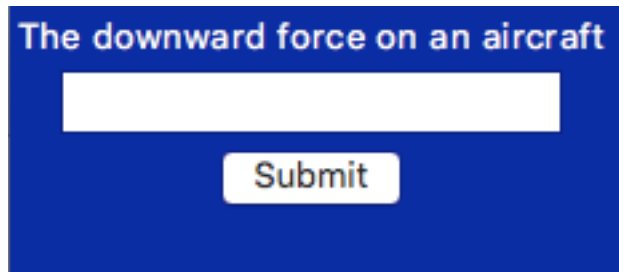

Country Singers

Your Score: \$-3200

Wager \$

- You must then enter wager. Your wager cannot exceed your score, unless you have a negative score - in this case you can wager up to \$2000. Once you have entered your wager, press the “wager \$” button.

- a window will appear with the question (after Wager if the question is a daily double or directly after you click it on the game board). You may have a certain amount of time to answer the question, depending on the settings. Enter your answer and press submit

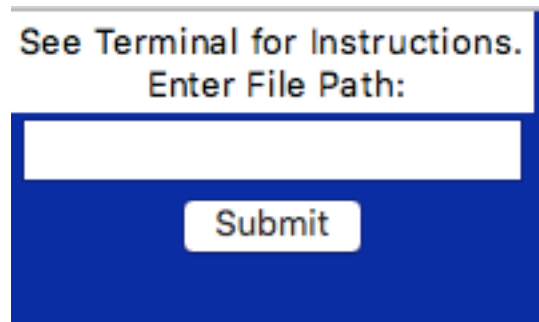

The downward force on an aircraft

Submit

Importing Data

- You can import new data for the program. Use by File to enter brand new data (non-existing genres or categories) and add to existing data, and by Question to add to existing data.

By File

See Terminal for Instructions.
Enter File Path:

Submit

- Make sure the terminal is in sight when importing data as it gives very important directions! It will tell you if there are any problems with importing your data and how to resolve them and if the import was successful.
- Before importing:
 - Ensure the file is saved in **“.txt”** format

- Make sure the file is divided into 4 columns, each separated by 9 spaces: Genre, Category, Question, Answer
- If you are importing a new category, ensure that it has **at least 5** questions in it
- Enter the file path OR if the file is in the same folder as Jeopardy, enter its name and extension

By Question

- First, select a genre you would like to add to and press the submit button

Select Genre:	Select Category:
Other	
Geography	
Literature	
Entertainment	
Science	

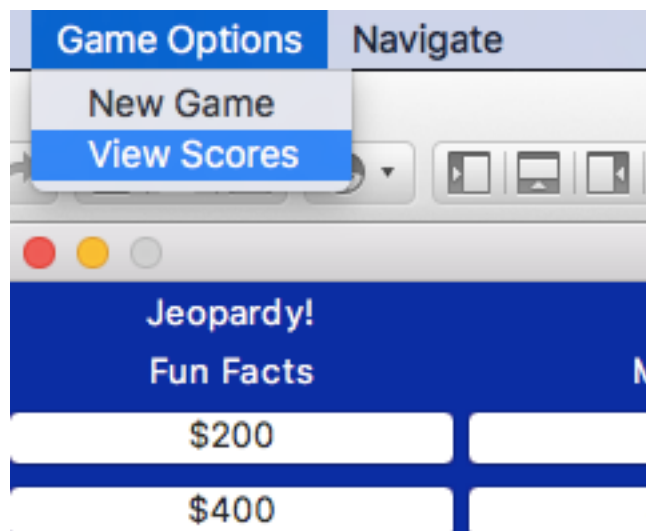

-->

- The second box will then be populated with categories that belong to that genre, as seen in the box below. Select the one you would like to add to.
- Enter a question and its answer in the corresponding entry boxes. Please make sure there are no extra spaces after the question and answer, then press "Submit".
- A message will be outputted in the Terminal window if the data was successfully recorded.

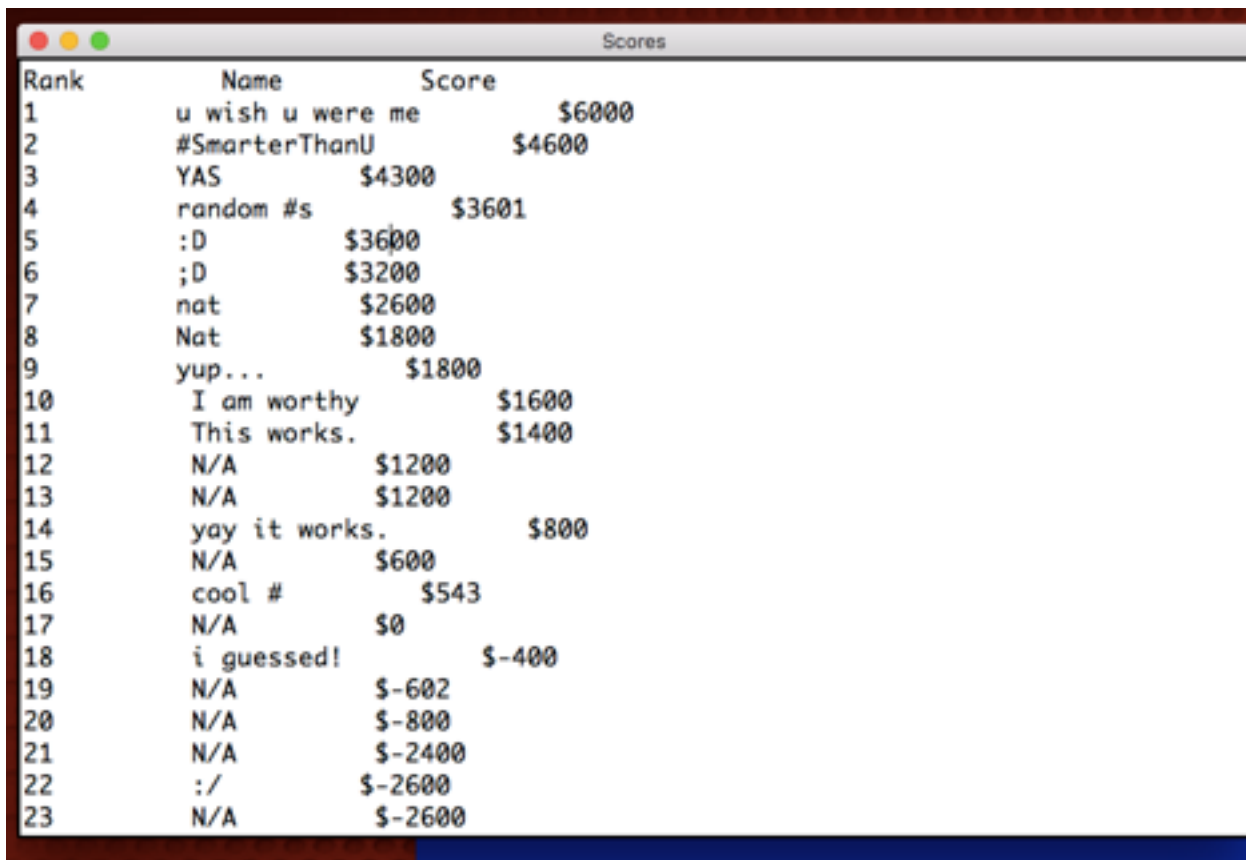

The image shows a game interface with a blue background. At the top, there are two selection menus. The left menu is titled "Select Genre:" and contains a list of options: "Other" (highlighted in pink), "Geography", "Literature", "Entertainment", and "Science". The right menu is titled "Select Category:" and contains a list of options: "Tallest, Fastest, or Largest" and "Fun Facts" (highlighted in pink). Below these menus is a button labeled "-->". At the bottom, there are two input fields labeled "Question:" and "Answer:". Below the "Answer:" field is a button labeled "Submit".

View Scores

- You can view your scores at almost any time from the Menu Bar or by clicking a button on the screen labelled "View Scores" (this will only appear on certain screens)

- This will open a window with the names and scores of the top 100 players, as seen below

Rank	Name	Score
1	u wish u were me	\$6000
2	#SmarterThanU	\$4600
3	YAS	\$4300
4	random #s	\$3601
5	:D	\$3600
6	;D	\$3200
7	nat	\$2600
8	Nat	\$1800
9	yup...	\$1800
10	I am worthy	\$1600
11	This works.	\$1400
12	N/A	\$1200
13	N/A	\$1200
14	yay it works.	\$800
15	N/A	\$600
16	cool #	\$543
17	N/A	\$0
18	i guessed!	\$-400
19	N/A	\$-602
20	N/A	\$-800
21	N/A	\$-2400
22	:/	\$-2600
23	N/A	\$-2600

- Press the red button on the window to close it.

Change Settings

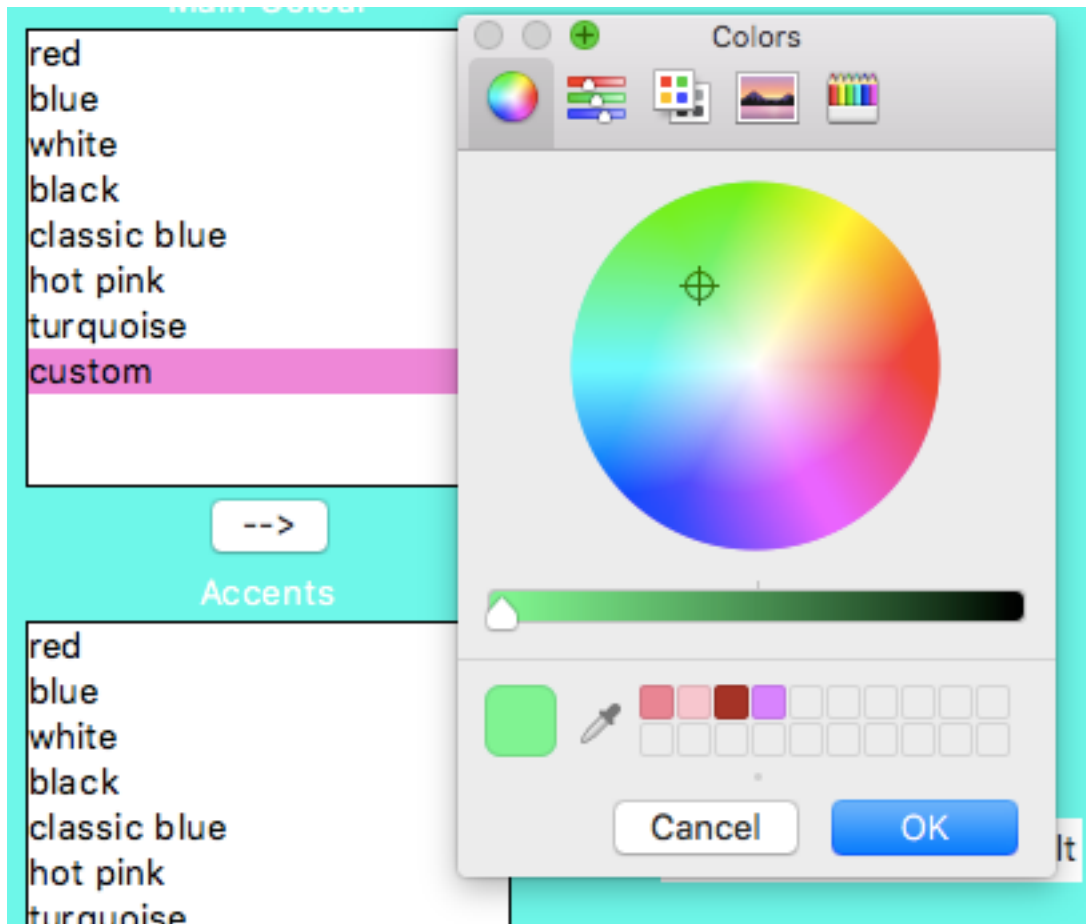

The screenshot shows a settings menu with a blue background. It contains three primary configuration areas:

- Main Colour:** A white box containing a list of color names: red, blue, white, black, classic blue, hot pink, turquoise, and custom. Below this list is a small button with the text "-->".
- Accents:** A white box containing the same list of color names as the Main Colour section. Below this list is another "-->" button.
- Time to Answer -- set to 0 for unlimited time:** A white box containing a list of numerical values: 0, 5, 10, 15, 20, 25, 30, 35, 40, and 45. Below this list is a "-->" button.

Additionally, there are two checkboxes on the right side of the interface:

- ☐ Make settings default
- ☐ Allow Restarting

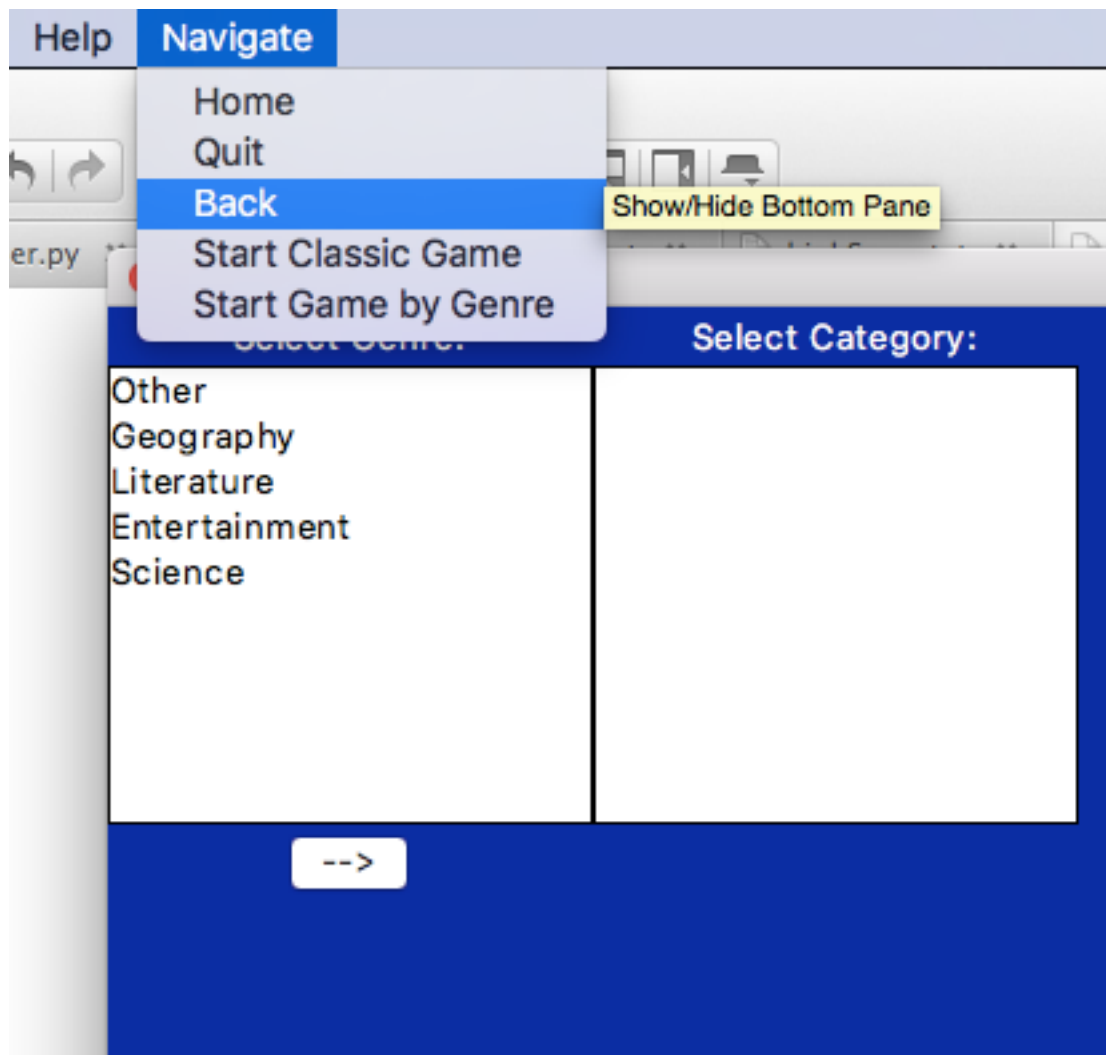

- Change colours by selecting a colour from the Main Colour or Accents menu and pressing their corresponding submit buttons
- Choose custom to open the colour picker and choose a colour
- The Terminal will prompt you to enter a name for the colour. If you do, it will be saved as a default colour, otherwise it will disappear once the program is closed

- Change the amount of time allowed to answer each question by selecting a time and pressing submit
 - Select 0 to allow unlimited time
- Check the allow restarting box to allow players to restart a round in the middle of the game
- Check all the settings you like and check "Make Settings Default" to make your selection the default for every time you open the game

Menu Bar

- The menu bar is unique to every screen and allows you to navigate the program, amongst other things

Options include:

- Help
 - Manual — opens manual
- Navigate (up to, depending on the screen)
 - Home — goes to home screen
 - Back — goes from specific import screen to import menu
 - Start Classic Game — starts a classic game
 - Start Game by Genre — takes you to genre page

- Quit — quits the program
- Game Options
 - New Game — start a new game
 - Restart Game — Restart the current game
 - View Scores — View the rankings

Enjoy!
